

Acute Care Rehabilitation FY23 Annual Report

Patient Outcomes

Most Common Patient Conditions

- Traumatic Brain Injury
- Spinal Cord Disorder
- Brain Tumor

The Acute Care Rehabilitation Program at Arkansas Children’s Hospital is the only pediatric facility in Arkansas offering inpatient rehabilitation 24 hours a day, seven days a week. The Program offers medical and rehabilitation services by a multi-disciplinary team to meet the needs of children, adolescents and young adults with physical and/or neurological disabilities.

The mission of the Acute Care Rehabilitation Program is to comprehensively support the patient and family while maximizing functional independence.
